Re: Swimming River Road Crosswalks

Dear Mr. Ettore,

The Township Safety Council requested our Police Department review the need for crosswalks on Swimming River Road at various locations. After our Traffic Safety Bureau reviewed the requests for crosswalks at High Point Road, Rose Street and Rogers Avenue they determined that based on appropriate criteria, crosswalks would not be appropriate at those locations. However, the Traffic Safety Bureau did recommend a crosswalk across Swimming River Road at Oak Street, so that anyone walking from the south toward the Lincroft Center could cross in the area of the first stores on Swimming River Road. Since Swimming River Road is a County Road, please advise on whether the County would move forward with the installation of the crosswalk at this location.

Thank you for your cooperation in this regard.

Very truly yours,

Robert M. Czech
Township Administrator
