Enclosed please find a copy of a Middletown Township Tax Map depicting Lot 1 in Block 1100. As you may know, the Township has recently acquired this 5.87+/-acre parcel through a land swap with Brookdale Community College in order to prevent the parcel from being developed. The Township intends to utilize this parcel for passive recreation. At this time, the Township Committee would request the Lincroft Village Task Force's assistance in developing a plan for passive recreation use of this parcel.

Please feel free to utilize the enclosed Tax Map as a template for your vision of the utilization of this parcel for a Village Green or other form of passive recreation. The Township Committee looks forward to your continued interest in planning for the future of the Lincroft Village. We will reconvene a meeting of the Task Force in late May or early June to discuss the park planning and future utilization of this parcel.
