Diane Gutierrez-Scaccetti  
Executive Director  
NJ Turnpike Authority  
P.O. Box 5042  
Woodbridge, NJ 07095

Dear Ms. Gutierrez-Scaccetti,

I am writing to you in regards to the New Jersey Turnpike Authority's plans to construct a new monopole cellular tower at Garden State Parkway Exit 109.

I am aware that the Turnpike Authority held a public hearing on this matter in 2007, but many residents living near the planned location have recently voiced concern regarding the project.

In addition, there may be residents who were not present for the original hearing because they moved into the surrounding community after it was held.

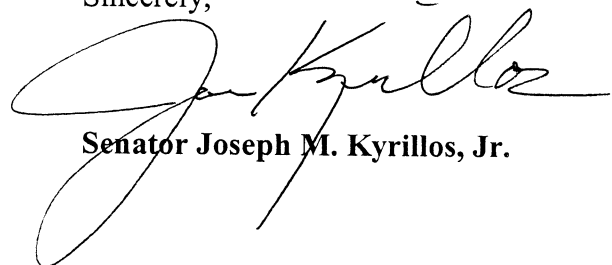

I would like to request that the Turnpike Authority hold another public hearing in Middletown so residents with questions and concerns can be heard and so they can obtain a better understanding of what the project entails.

If another public hearing is held I will make sure to contact my constituents so that they have the opportunity to attend.

Please do not hesitate to contact me with any concerns regarding this request.

With best wishes.

Sincerely,

Senator Joseph M. Kyrillos, Jr.

cc: Mayor Pam Brightbill
